

SYLLABUS (Summer 2025 (U25))

**UNIVERSITY OF
SOUTH FLORIDA**

EGN 3615 Engineering Economics with Social and Global Implications

No Course Prerequisites, 3.0 Credit Hours
 Section 001 and 701; Summer 2025 (U25)

Welcome!

Welcome to the Engineering Economics with Social and Global Implications course. This course is an economics course rather than an engineering course. However, the economics topics covered in this course are those that are most useful to engineers of all majors to make informed project investment decisions.

This course is part of the University of South Florida's General Education Curriculum. Students enrolled in this course will be asked to participate in the USF General Education assessment effort. This will involve submitting copies of writing assignments for review via Canvas.

Professor:	Dr. Jamie Chilton, PhD	Professor:	Dr. Joanna Burchfield, PhD

I. University Course Description

Presents basic economic models used to evaluate project investments with an understanding of the implications of socio-cultural factors on financial decisions through lectures, problem solving, and critical writing. This course affords students an understanding of the basic social and behavioral science concepts and principles used in the analysis of behavior and past and present social, political, and economic issues.

II. Course Purpose

The chief executive officer of a corporation, the mayor of a city, the dean of a college, the quarterback of a football team, a design engineer, and a parent all have at least one thing in common: they must all make economic decisions in a changing global environment. This course will provide you with the ability to critically evaluate economic alternatives in a variety of social and global contexts to make engineering decisions.

III. Course Delivery Method

Classes will be held in real time. Students in section 001 will meet in the designated building and room on USF Tampa campus, while students in section 701 (online) will participate virtually in synchronous sessions through Teams 365. Students are expected to attend class in real time and in the modality in which they are registered. Lectures will be recorded in Teams 365 and are available after class in the course team in Teams 365 under General > Files > Recordings.

IV. Course Objectives

At the completion of the course:

- Students will gain the ability to use the concepts of engineering costs, interest, time value of money, present value, and cash flows, all in the context of social, political, and economic factors that prevail in various parts of the world.
- Students will be able to assess the value of economic endeavors in various international environments.
- Students will be able to describe the values and communication styles found in groups different from one's own and the way in which those differences can affect styles of verbal and nonverbal communications.

V. General Education Statement

This course is part of the University of South Florida's Enhanced General Education Curriculum. Students enrolled in this course will be asked to participate in the USF General Education assessment effort. This assessment effort will involve submitting copies of writing/communication assignments for review via Canvas.

VI. Course Topics

Economic Analysis Topics

- Introduction (economic decision making, its role and process, ethical issues)
- Engineering costs, cost estimation, and breakeven analysis (engineering cost definitions, various cost estimation models, breakeven analysis for a single or multiple projects, and cash flow diagrams)
- Nominal & effective interest rates, and single-payment economic factors (time value of money, nominal & effective interest rates; payment vs. compounding period; continuous compounding; time-varying rates)
- Repeated-payment economic factors (uniform series; arithmetic gradients; geometric gradients; shifted series & gradients)
- Present worth analysis (equal-life & different-life alternatives; future worth analysis; capitalized cost; payback period)
- Annual worth analysis (capital recovery; evaluating alternatives by AW analysis; AW of a permanent investment)
- Rate of return analysis (single & multiple alternatives; ROR & PW/AW relationships; multiple ROR values; incremental analysis)
- Depreciation, federal taxes, and their impact on ROR (basic depreciation models and MACRS, taxable income, and tax computation, before- and after-tax ROR)
- Replacement Analysis (challenger vs defender analysis, minimum cost life, repeatability assumption)

Social and Global Implications Topics

- Dimensions of economic and engineering decision-making – Socio-cultural, Ideological, Political, Geographical, Educational, Communication, Technological, Environmental, Health, etc.

Communication Topics

- Introduction to Communication
- Interpersonal Communication in Professional Engineering

Optional Topics (if time permits)

- Current events relating to engineering economics
- Personal Finance

VII. Required Course Materials and Technologies

- 1) **Engineering Economic Analysis**, 14th Edition by Newnan, Eschenbach, Lavelle and Lewis, published by Oxford University Press, 2020. **Please make sure it is the newest 14th edition!**
- 2) Routine and reliable daily access to USF's learning management system (LMS): **Canvas**
 - All students must install the Canvas application (app) on their smart phones or mobile devices
 - All students must log in to Canvas through their MyUSF account on their laptops or desktop computers
- 3) **Readings, files, podcasts, audios, videos and/or any other materials** posted in Canvas as required reading, listening, and/or watching.
- 4) Routine and reliable daily access to **PC laptops**, PC computer desktops, and/or mobile devices, as well as access to the internet to participate in class, submit assignments via Canvas, check Canvas Announcements and complete other activities in Canvas and Teams 365. Students are REQUIRED to use personal PC laptops, PC desktops, and/or mobile devices for classes, recitations, quizzes, exams, and any other assignments or activities.
- 5) Routine and reliable daily access to **Microsoft WORD, POWERPOINT, EXCEL, and other Microsoft 365 software** (<https://software.usf.edu/microsoft-office-365>) to participate in class, complete problem sets, and submit Excel assignments and/or other assignments in Canvas.
 - Microsoft 365 is free for USF students through USF at the following link: <https://software.usf.edu/microsoft-office-365>
 - Mac and Apple files types will NOT be accepted under any circumstance, so students must obtain access to Microsoft Office software.
- 6) Routine and reliable daily access to **Teams 365 software** (<https://software.usf.edu/teams-365>) to participate online in class and complete activities online.
 - All students must install the Teams 365 application (app) on their smart phone or mobile device
 - All students must install the Teams 365 client/software on their PC laptops or desktop PC computers
 - All students must use their USF account to join the Team for this course on Teams 365.
- 7) Routine and reliable daily access to **video camera and/or webcam** to use with their personal laptops and/or mobile devices to use for exams and during live class sessions on Teams 365.
- 8) Routine and reliable daily access to **headphones, earphones and/or earbuds** to use with their personal laptops and/or mobile devices to use during live class sessions on Teams 365 (excludes using headphones, earphones, and/or earbuds, etc. during quizzes and exams).
- 9) Download and installation of the **Honorlock Google Chrome extension**.
- 10) Access to **online and/or streaming media platforms** including, but not limited to, Apple Podcasts, Google Podcasts, YouTube, Netflix, HBO, and Amazon Video.
- 11) [Optional; Recommended as a guide to writing] William Strunk, Jr. and E. B. White. (1999). *The Elements of Style*, 4th Edition. Pearson. ISBN-13: 978-0205309023

VIII. Contacts for Assistance

For questions regarding

- | | |
|-------------------------------|--|
| • Exams and/or Excel Project | Dr. Jamie Chilton (Canvas message only) |
| • #GEA Assignments | Dr. Joanna Burchfield (Canvas message only) |
| • Technical and Canvas Issues | USF Help (help@usf.edu); (813) 974-1222 |
| • Honorlock Issues | Honorlock Live Chat at https://honorlock.com/support/ |

Professors and TAs are to be contacted via Canvas message only during the normal business week of Monday 8:00 AM Eastern Time (ET) through Friday 5:00 PM Eastern Time (ET). Emails to USF email addresses will NOT receive a reply. MS Teams chat messages outside of live class time will NOT receive a reply.

IX. Assessment and Grading

a) Grade Categories and Weights

Assessment (Grade Category)	Percent of Final Grade (Weight)
3 Midterm Exams	60%
Excel Project & Assignments	20%
#GEA1 Assignments	10%
#GEA2 Assignments	10%
Total Grade	100%

b) Grading Scale

Grading Scale	
90-100	A
80-89.99	B
60-79.99	C
30-59.99	D
0-29.99 (<60)	F

By College of Engineering Rule:

Only grades of C or better will be accepted in all Math, Science, and Engineering courses to fulfill credit towards an Engineering Degree.

c) Grade Dissemination

Students can access their scores for each assignment and assessment at any time under the “Grades” menu option in Canvas. Students should expect that exams take at least 3 – 4 weeks (as a minimum) from the posted deadline for the Professor to grade and for students to see their grades.

d) Late Submission Policy

Assignments are not accepted after the submission window in Canvas has closed under any circumstances.

e) Engineering Economics Exams

Students may only use a single laptop or computer with a single monitor to take all engineering economics exams. All engineering economics exams are closed textbook, closed lecture notes, closed lecture slides, closed personal notes, or any other extra resources. Students may NOT use any online resources or any social media and communication platforms of any kind on engineering economics exams. Students may NOT use any smart devices (including, but not limited to, cell phones and tablets) of any kind on engineering economics exams. All engineering economics exams will be taken online in Canvas and proctored using Honorlock. It is the sole responsibility of the student to ensure that Honorlock is properly set up on their laptop and/or computer and operating successfully to take engineering economics exams. It is the sole responsibility of the student to ensure their laptop and/or computer is working properly to successfully take engineering economics exams. It is the sole responsibility of the student to ensure they are taking engineering economics exams from a location with reliable and sufficient internet strength. The Professor will be unable to help students troubleshoot the use of Honorlock during engineering economics exams, so students must contact Honorlock technical support immediately upon experiencing any issues. Use of headphones, earphones, and/or earbuds is NOT ALLOWED during engineering economics exams. Taking breaks or leaving engineering economics exams is not accepted under any circumstance. All engineering economics exams must be taken on the scheduled engineering economics exam dates posted in

Canvas. Engineering economics exams may NOT be submitted late. **No make-up engineering economics exams will be offered under any circumstance, regardless of the reason for missing an engineering economics exam.** The lowest engineering economics exam grade will be dropped.

If students wish to discuss any of their engineering economics exam grades with the Professor, then they must do so within two (2) weeks after receiving their grade for the specific engineering economics exam they wish to discuss. Two (2) weeks after receiving an engineering economics exam grade, the ability to discuss an engineering economics exam grade for any possible changes will expire.

X. Student Responsibilities

Class sessions will be in-person and/or transmitted and recorded online through Teams 365 and/or videos.

Class Participation

- Students are expected to synchronously attend class in person or online via Teams 365 according to their registered section modality, and/or watch videos.
- Always be on time to class. Please be courteous with respect to your fellow classmates, your TA, and your Professor. Thank you!
- Always have your textbook available for lecture sessions.
- Have a laptop or smart mobile device with you for work during class.

Course material

Students are responsible for all information conveyed during class (in-person and/or Teams 365), as well as anything posted in Canvas (videos, resources, assignments, etc).

Exams and Assignments

- All exams and individual assignments are to be completed independently without consultation or collaboration with other students or any other person.
- Assignment due dates are included in the course schedule and posted in Canvas. It is the student's responsibility to learn and track these postings. All exams and assignments must be submitted before the Canvas submission window closes.
- Exams must be taken on the scheduled exam dates. **There are no make-up exams under any circumstances.**

Academic Dishonesty

- In this course dishonesty in any form will not be tolerated. If any student is caught cheating, plagiarizing, copying, or in any other way attempting to represent the work of others as his/her own work, the student will receive a failing grade in the course. Trying to earn a few points in any evaluation from work that is not your own is not worth the risk of receiving a failing grade in the course.
- If any student is caught cheating on any exam or assignment, they will receive a grade of zero in the corresponding evaluation. If a student is caught cheating a second time, a final grade of "F" will be assigned.

XI. Course Policies: Technology and Media

Communication:

All communication in the course will be conducted through USF's learning management system (LMS), Canvas, or Teams 365. It is the student's responsibility to make sure they are receiving their official Canvas notifications and announcements and their Teams 365 notifications. Professors and TAs are to be contacted via Canvas message only during the normal business week of Monday 8:00 AM Eastern Time (ET) through Friday 5:00 PM Eastern Time (ET). Emails to USF email addresses and Teams chat messages outside of class time and outside of office hours will NOT receive a reply.

Teams 365 Recordings:

In this class, software will be used to record live class lectures and discussions. As a student in this class, your participation in live class discussions will be recorded. These recordings will be made available only to students enrolled in the class, to assist those who cannot attend the live session or to serve as a resource for those who would like to review content

that was presented. Students who prefer to participate via audio only will be allowed to disable their video camera so only audio will be captured. Please discuss this option with your Professor(s).

Honorlock Online Exam Proctoring:

All students must review the syllabus and the requirements including the online terms and video testing requirements to determine if they wish to remain in the course. Enrollment in the course is an agreement to abide by and accept all terms. Any student may elect to drop or withdraw from this course before the end of the drop/add period.

Online exams within this course will require online proctoring through Honorlock. Therefore, students will be required to have a webcam (USB or internal) with a microphone when taking an exam or quiz. Students understand that this remote recording device is purchased and controlled by the student and that recordings from any private residence must be done with the permission of any person residing in the residence. To avoid any concerns in this regard, students should select private spaces for the testing. The University library and other academic sites at the University offer secure private settings for recordings and students with concerns may discuss location of an appropriate space for the recordings with their Professor or advisor. Students must ensure that any recordings do not invade any third-party privacy rights and accept all responsibility and liability for violations of any third-party privacy concerns. Students are strictly responsible for ensuring that they take all exams using a reliable computer and high-speed internet connection. Setup information will be provided prior to taking the proctored exam. To use Honorlock, students are required to download and install the [Honorlock Google Chrome extension](#). For additional information please visit the [USF online proctoring student FAQ](#) and [Honorlock student resources](#).

WhatsApp, GroupMe, Discord, Slack, and any other Student-to-Student Communication Platform:

While students may use digital communication tools (WhatsApp, GroupMe, etc.) to communicate with fellow students, it is important to remember that academic integrity policies still apply in these environments. Informing others about the contents of tests is prohibited by [the official regulation](#), as is receiving unauthorized information about an examination. Students are expected and required to immediately report instances of such violations to the Professor.

Course Hero / Chegg Policy:

The [USF Policy on Academic Integrity](#) specifies that students may not use websites that enable cheating, such as by uploading or downloading material for this purpose. This does apply specifically to Chegg.com and CourseHero.com – any use of this website (including uploading materials) constitutes a violation of the academic integrity policy.

Turnitin.com:

In this course, turnitin.com will be utilized. Turnitin is an automated system which Professor(s) may use to quickly and easily compare each student's assignment with billions of web sites, as well as an enormous database of student papers that grows with each submission. After the assignment is processed, Professor(s) receive a report from turnitin.com that states if and how another author's work was used in the assignment. For a more detailed look at this process visit <http://www.turnitin.com>.

XII. Course Policies: GEA Policies

Please see Canvas for a full explanation of the policies listed below

Written Communication

All written course-related communication will be conducted exclusively through Canvas Messenger. All messages will follow professional etiquette. Messages sent via USF email or MS Teams, or which are unprofessional in nature will not receive a response. See Canvas for a full explanation of this policy and examples of appropriate etiquette.

Constructing Written Messages

Use an appropriate title and name for your recipient; include a specific and relevant subject; keep messages direct and concise; use a polite, courteous, and professional tone; do not use accusatory language. If you do not receive a response within 72 business hours (not including weekends and holidays) and still want a response, send a courteous follow-up message in the original message thread.

Grade Structure

Communication/GEA assignments are weighted on a 1000-point scale. Grades for this course are based on a “credit earned toward completion” model rather than a “credit deduction” model. This means that all students start the class with a zero (0) and earn credit toward completion as the semester progresses. It is important to understand that no students ever “lose” points on any assignment/exam, because every student’s grade for every assignment/exam is always zero (0) until the student has earned points for work done toward the completion of the assignment/exam. In other words, the framing of “losing points” does not make sense in a “credit earned toward completion” model of grading. Please see the Grade Structure Policy in Canvas for additional explanation and examples.

The Grace Period

All assignments are due on the due date and must be submitted through their corresponding Canvas assignment submission portals. Some assignments are subject to a “grace period.” The grace period allows students to submit work late (after the due date), between the time when the assignment due date has passed and the assignment closes. There is no penalty for submitting work during the grace period. The assignment due dates and assignment close dates are visible in Canvas; the time between a given assignment’s due date and its close date is the grace period for that assignment. Students are responsible for looking at the assignment information in Canvas to determine an assignment’s grace period.

The grace period provides students an opportunity to check that the files they submitted are correct, that the files uploaded correctly, and that the work they submitted is to their satisfaction. The grace period also gives students time to resolve unexpected technical difficulties or personal matters that may arise at the time an assignment is due. The grace period is not an extension, and students are strongly advised against treating it as an extension. There is no grace period for the grace period, and once an assignment closes, it will not be reopened for any reason. Submitting your work to an assignment after the due date is inherently risky, as technical difficulties, personal issues, and incorrect file uploads are equally as likely after the due date as they are before.

Assignment Submissions

All assignments are due on the due date and must be submitted through the appropriate, corresponding Canvas assignment submission portal. Assignments submitted after the due date are late. Assignments are never accepted via email, Canvas messages, MS Teams, in person, or through any submission method other than the appropriate Canvas assignment portal. Attaching a file in the comments in the submission portal is not considered a submission and will not be treated as a submission. Only assignments submitted to the appropriate Canvas portal and that appear as the official submission in the submission portal/Speed Grader are considered submitted assignments.

Quizzes

Please see the full policy description in Canvas.

Communicating About Grades

Questions and concerns about grades for all assignments must be brought to your professor and TA’s attention within two weeks of the grade being posted. Prior to messaging about grades, you must first: 1) review the assignment description, instructions, and requirements; 2) review the assignment rubric; 3) compare your submission with the assignment instructions, requirements, and rubric; 4) review any feedback or comments left for you in your graded rubric or in the main comments section of the assignment portal. If you still have questions once you have completed these steps, formulate your specific questions about the specific aspects of how your work was graded and then contact your professor or GEA TA. Requests for “regrades” must also follow these steps and must include assignment-specific reasoning. Please see the “Communicating About Grades” page in Canvas for additional details and guidance.

Late Submissions

All assignments are due on the listed due dates. In-class activities, quizzes, assignments, etc. must be completed at the time the activity/assignment occurs during class. Some assignments are eligible for late submission during the grace period (see the grace period policy for additional details). No late assignments or in-class activities are accepted after the assignment closes, the in-class activity is over, the grace period ends, etc. No alternative assignments will be created for students who miss assignments/activities. There are. No exceptions to this policy.

Schedule Conflicts

Sincere attempts have been made to provide built-in flexibility for students. GEA assignments, quizzes, workshops, participation, extra credit, etc. will not be rescheduled or redesigned due to obligations in students' other classes or lives. Please see the "Schedule Conflicts" policy in Canvas for additional explanation and details.

Schedule Conflicts on GEA Workshop Days

In the event of a USF sanctioned schedule conflict, students must notify their professors in the first week of classes or as soon as the student is aware of the conflict (eg, jury duty), and official documentation must be provided for said conflicts.

In the event of a work or internship conflict, it is the student's responsibility to communicate clearly and professionally with their employer or supervisor to negotiate specific attendance or exam accommodations at work so that the student may complete required academic activities to successfully further their degree progression; it is not the responsibility of USF professors to accommodate students' various work schedules.

File Uploads (Empty, wrong, corrupt, or otherwise unreadable or "missing" files)

If a file that is empty, incomplete, corrupt, the incorrect file, or is otherwise unreadable, unopenable, or "missing" in some way is submitted to the assignment portal for assessment and the student does not recognize and correct the issue prior to the assignment closure, the submission will be graded as is. The assignment will not be reopened and the student will not be permitted to upload a different file after the assignment has closed. Additionally, attaching a different file in the comment section of the submission portal will not constitute a submission of any kind (on-time or late), and will not be assessed.

Make-up Assignments

There are no "make-up" assignments for any of the communication assignments in this course. In the event that a scheduled assignment or in-class activity/assignment is missed for any reason, the assignment or activity will not be reopened and no make-up work will be created for the student.

Extra Credit

Some extra credit is offered within GEA assignment rubrics and sometimes during GEA workshops. No additional extra credit opportunities or alternative assignments will be created. Additionally, no extra credit or alternative assignments will be created at the end of the semester. Please see the "Extra Credit" policy for additional details.

XIII. Course Policies: Student Expectations

USF Standard University Policies

USF has a set of central policies related to student recording class sessions, academic integrity and grievances, student accessibility services, academic disruption, religious observances, academic continuity, food insecurity, and sexual harassment that apply to all courses at USF. Be sure to review these online at: <https://www.usf.edu/provost/faculty/core-syllabus-policy-statements.aspx>

Academic Integrity

Academic integrity is the foundation of the University of South Florida's commitment to the academic honesty and personal integrity of its university community. Academic integrity is grounded in certain fundamental values, which include honesty, respect, and fairness. Broadly defined, academic honesty is the completion of all academic endeavors and claims of scholarly knowledge as representative of one's own efforts. The process for faculty reporting of academic misconduct, as well as the student's options for appeal, are outlined in detail in USF Regulation 3.027 (<https://usf.app.box.com/v/usfregulation3027>).

Academic Grievance Procedures

The purpose of these procedures is to provide all undergraduate and graduate students taking courses at the University of South Florida an opportunity for objective review of facts and events pertinent to the cause of the academic grievance. An "academic grievance" is a claim that a specific academic decision or action that affects that student's academic record or status has violated published policies and procedures or has been applied to the grievant in a manner different from that used for other students.

Disability Access

Students with disabilities are responsible for registering with Students Accessibility Services (SAS) (SVC 1133) in order to receive academic accommodations. SAS encourages students to notify instructors of accommodation needs at least five (5) business days prior to needing the accommodation. A letter from SAS must accompany this request. Please visit the Student Accessibility Services website (<https://www.usf.edu/student-affairs/student-accessibility>) for more information.

Disruption to Academic Process

Disruptive students in the academic setting hinder the educational process. Disruption of the academic process (USF Regulation 3.025 <https://usf.app.box.com/v/usfregulation3025>) is defined as the act, words, or general conduct of a student in a classroom or other academic environment which in the reasonable estimation of the instructor: (a) directs attention away from the academic matters at hand, such as noisy distractions, persistent, disrespectful or abusive interruption of lecture, exam, academic discussion, or general University operations, or (b) presents a danger to the health, safety, or well-being of self or other persons.

Food and Housing Insecurity

We recognize that students facing financial difficulty in securing a stable place to live and/or in affording sufficient groceries may be at risk of these financial issues affecting their performance in classes. Students with these needs are urged to contact Feed-A-Bull (feedabull@usf.edu or their website <https://www.usf.edu/student-affairs/student-health-services/services/feed-a-bull-food-pantry.aspx>), or Student Outreach and Support (socat@usf.edu or their website <https://www.usf.edu/student-affairs/student-outreach-support>).

House Bill 233

Preliminary Guidance Document <https://www.usf.edu/provost/documents/provost-comms/2021-08-13-hb233-guidance.pdf>

Students may, without prior notice, record video or audio of a class lecture for a class in which the student is enrolled for their own personal, educational use. A class lecture is defined as a formal or methodical oral presentation as part of a university course intended to present information or teach enrolled students about a particular subject. Recording class activities other than class lectures, including but not limited to lab sessions, student presentations (whether individually or part of a group), class discussion, clinical presentations such as patient history, academic exercises involving student participation, test or examination administrations, field trips, private conversations between students in the class or between a student and the faculty member is prohibited. Recordings may not be used as a substitute for class participation and class attendance and may not be published or shared without the written consent of the faculty member. Failure to adhere to these requirements may constitute a violation of the USF Student Conduct Code (<https://usf.app.box.com/v/usfregulation60021>).

Religious Observances

All students have a right to expect that the University will reasonably accommodate their religious observances, practices and beliefs (USF Policy 10-045 <https://usf.app.box.com/v/usfpolicy10-045>). The University of South Florida, through its faculty, will make every attempt to schedule required classes and examinations in view of customarily observed religious holidays of those religious groups or communities comprising USF's constituency. Students are expected to attend classes and take examinations as determined by the university. No student shall be compelled to attend class or sit for an examination at a day or time prohibited by his or her religious belief. However, students should review the course requirements and meeting days and times to avoid foreseeable conflicts, as excessive absences in a given term may prevent a student from completing the academic requirements of a specific course. Students are expected to notify their instructors at the beginning of each academic term if they intend to be absent for a class or announced examination, in accordance with this Policy.

Sexual Misconduct/Sexual Harassment Reporting

USF is committed to providing an environment free from sex discrimination, including sexual harassment and sexual violence (USF Policy 0-004 <https://usf.app.box.com/v/usfpolicy0-004>). The USF Center for Victim Advocacy is a confidential resource where you can talk about incidents of sexual harassment and gender-based crimes including sexual assault, stalking, and domestic/relationship violence. This confidential resource can help you without having to report

your situation to the Title IX Office unless you request that they make a report. Contact the USF Center for Victim Advocacy: 813-974-5757 <https://www.usf.edu/student-affairs/victim-advocacy>. Please be aware that in compliance with Title IX and under the USF Policy, educators must report incidents of sexual harassment and gender-based crimes including sexual assault, stalking, and domestic/relationship violence. If you disclose any of these situations personally to an educator, he or she is required to report it to the Title IX Office. For more information about Title IX, a full list of resources, or to report incidents of sexual harassment, sexual violence, relationship violence or stalking visit: <https://www.usf.edu/title-ix>.

Statement of Academic Continuity

In the event of an emergency, it may be necessary for USF to suspend normal operations. During this time, USF may opt to continue delivery of instruction through methods that include, but are not limited to: Canvas, Teams, email messaging, and/or an alternate schedule. It is the responsibility of the student to monitor the Canvas for each class for course-specific communication, and the USF, College, and Department websites, emails, and ALERTUSF (<https://www.usf.edu/administrative-services/emergency-management/programs/emergency-notification-system.aspx>) messages for important general information (USF Policy 6-010 <https://usf.app.box.com/v/usfpolicy6-010>).

End of Semester Student Evaluations:

All classes at USF make use of an online system for students to provide feedback to the University regarding the course. These surveys will be made available at the end of the semester, and the University will notify you by email when the response window opens. Your participation is highly encouraged and valued.

XIV. Course Technology & Student Support

Academic Accommodations

Students with disabilities are responsible for registering with Student Accessibility Services (SAS) in order to receive academic accommodations. For additional information about academic accommodations and resources, you can visit the SAS website.

[SAS website for the Tampa and Sarasota-Manatee campuses.](#)

[SAS website for the St. Pete campus.](#)

Academic Support Services

The USF Office of Student Success coordinates and promotes university-wide efforts to enhance undergraduate and graduate student success. For a comprehensive list of academic support services available to all USF students, please visit the [Office of Student Success website](#).

Canvas Technical Support:

This course will be offered via USF's learning management system (LMS), Canvas. **All communication in the course will be conducted through Canvas messages and the course website in Canvas in the USF portal.** It is the student's responsibility to make sure they are receiving their course Canvas notifications and announcements. **Communication from the Professor(s) to the students will NOT be through email.**

If you have technical difficulties in Canvas, you can find access to the Canvas guides and video resources in the "Canvas Help" page on the homepage of your Canvas course under the left-side menu options or visit <https://community.canvaslms.com/t5/Canvas/ct-p/canvas>. You can also contact the Help Desk in Tampa by calling 813-974-1222 or 813-974-4357 in Tampa or emailing help@usf.edu.

[IT website for the Tampa campus.](#)

[IT website for the St. Pete campus.](#)

[IT website for the Sarasota-Manatee campus.](#)

Procedure to log onto the course website:

1. Go to the USF portal <http://www.usf.edu>.
2. Click on MYUSF and sign on using your USF NetID and password.
3. Hover over Learning & Teaching Tools and click on Canvas.

4. Click on Dashboard or Courses from the left-side menu and select the course **EGN3615.U25 Engr Econ Social/Global Impltn. All course sections have been combined into a single section 001 for Summer 2025 (U25).**
5. Look for course information by clicking on left-hand Canvas menu options: Syllabus, Announcements, Modules, Assignments, and Grades, among others.

Center for Victim Advocacy

Example: The [Center for Victim Advocacy](#) empowers survivors of crime, violence, or abuse by promoting the restoration of decision making, by advocating for their rights, and by offering support and resources. Contact information is available online.

Counseling Center

Example: The Counseling Center promotes the wellbeing of the campus community by providing counseling, consultation, prevention, and training that enhances student academic and personal success. Contact information is available online.
